# Description

CareerPath Pro is a job application tracker along with a job search engine that allows users to search for CS jobs.

It also allows users to autofill websites with their personal information.

# Tools

## Front-end:

- HTML (5/5) 
- CSS (5/5)

# Challenges

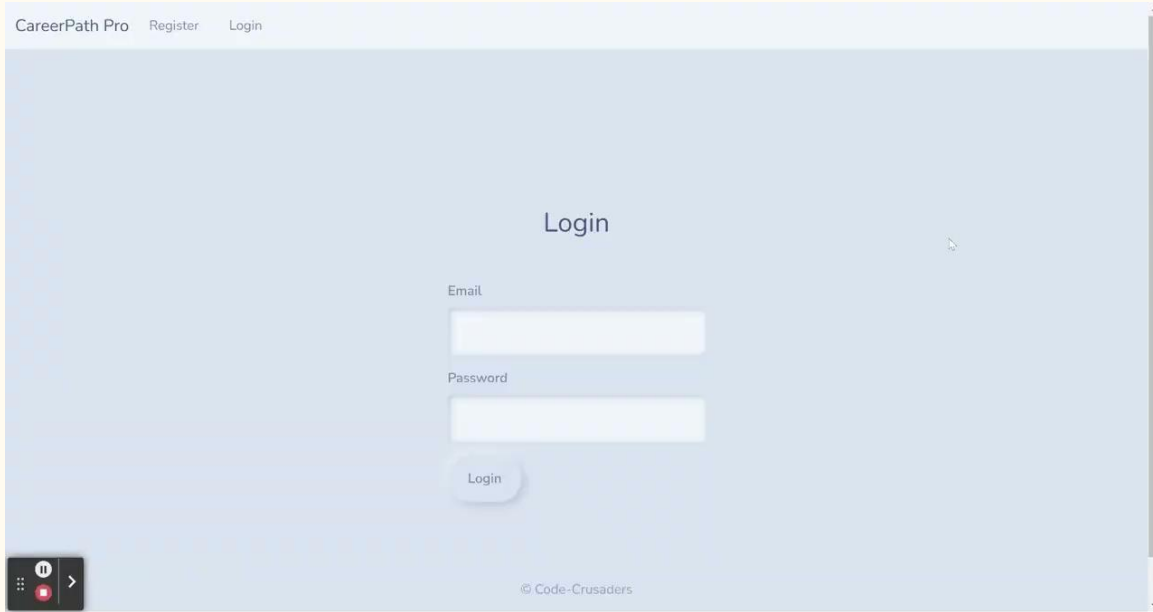

The main challenges that our team had to work through were...

- 1. Understanding how to work collaboratively with others on Github**
- 2. Deciding on the right API to import real job applications into our software**
- 3. Remembering to update the volumes in docker to reflect the latest changes**
