Team Members:
1. Aidan Flynn
2. Joseph De Lisa
3. Charlotte Hauke
4. Ryan Mosier
5. Ryan McKiel
6. Navan Chauhan

Application Name: CareerPath Pro

Application Description:

    The CareerPath Pro application will keep track of the job listings that the user added to their potential job lists. Some features that this application will include are a chronological order for application due date and an autofill function to automatically populate data into the job application.

Vision Statement:

    For career-focused students seeking streamlined and efficient job application management, CareerPath Pro is a career management tool that simplifies and organizes the job search process with features like chronological tracking of application deadlines and an autofill function for rapid form completion.

Development Methodology: Agile
